**II. MODIFICATION**

Arthur Zeigler, owner of Ambrosia Technology, requested the Department of Ecology (Ecology) to reduce the wastewater discharge limit from 40,000 gallons per day to 10,000 gallons per day. Ecology hereby proposes to grant the request via this permit modification.

This request was made because the current limit (40,000 gallons per day) is much larger than needed. Also, the lower flow limit has a lower annual fee. This facility, for permit fee purposes, is classified under the category "Facilities Not Otherwise Classified-Individual Permit Coverage." The lower category will reduce the annual permit fee for the facility.

This Statement of Basis will serve as an amendment to the Fact Sheet and Permit.
